

Business Continuity Policy Statement

UniTrust Protection Services (UK) Ltd provide a comprehensive range of security guarding and close protection services to its Clients.

In order to protect the company, clients and other interested parties against the threats posed by disaster, major incident or business disruption the company has incorporated the principles of business continuity into its overall management systems. The following requirements for the Business Continuity Management System have been adopted by UniTrust:

1. To maintain all security guarding and close protection activities in the event of a business continuity incident.
2. In the event of business disruption, to ensure that client services are maintained at a level acceptable to the client.
3. To communicate the company’s policy with regard to Business Continuity to all interested parties.

In order to implement these Business Continuity requirements, the company is committed to the development, implementation, maintenance and continual improvement of a Business Continuity Management System (BCMS) which addresses all essential and critical business activities. These systems are designed to meet the requirements of ISO 22301. It is the policy of UniTrust to have these systems assessed on an on-going basis by a third-party assessment body.

The BCMS addresses all significant planned and unplanned events which impact negatively on the company’s ability to deliver the contracted service to its clients.

Objectives for the BCMS are set to enable the effectiveness of the BCMS to be measured. These objectives are established as part of the management review process and reviewed on an annual basis.

Appropriate documented processes are established and communicated to all relevant personnel. Appropriate training is given to all personnel to enable them to undertake the duties required by the BCMS.

This Policy Statement is communicated to all persons working for or on behalf of the company.

This Policy Statement is reviewed annually as part of the management review process and when significant changes to the company take place.
